Please briefly present the partner organization.

Inspireus+ (İlhamlı Gençlik Derneği) is a vibrant and forward-thinking NGO based in Antalya, Turkey. We were founded by a passionate and experienced team who have been actively involved in Erasmus+ projects for many years. While our organization is newly established, our team brings strong expertise in project development, international cooperation, and non-formal education. Over the years, our team has successfully developed, planned, and carried out a large number of projects under various Erasmus+ projects. We created Inspireus+ to promote meaningful learning, intercultural dialogue, and equal access to personal and professional development through Erasmus+ and other European opportunities. We work across Youth and other Erasmus+ fields, and regularly cooperate with universities, schools, NGOs, public institutions, and social enterprises. This cross-sectoral collaboration helps us design inclusive, impactful, and sustainable initiatives that respond to today's social challenges. We are committed to empowering individuals through digital tools, green practices, and inclusive approaches. At Inspireus+, we believe that international mobility and learning experiences foster active citizenship, lifelong learning, and stronger communities both locally and across Europe.

What are the activities and experience of the organisation?

Inspireus+ has extensive experience in the field of Youth Work, as well as in other key areas of the Erasmus+ Programme, including School Education and Adult Education. Our youth-focused activities are strongly rooted in the university ecosystem of our city, where we maintain ongoing collaborations with students, university staff, youth clubs, and youth workers. In this environment, young people are valued and their potential is nurtured.

What are the activities and experience of the organisation?

Together, we co-design and implement meaningful learning opportunities that promote active participation, civic engagement, and personal growth. We believe that young people are not only the future but also the present, and therefore, we invest in creating inclusive spaces where their voices are heard and their ideas are valued. Through non-formal education methods, experiential learning, and intercultural activities, we encourage young individuals to step out of their comfort zones, build self-confidence, and develop essential skills such as teamwork, problem-solving, leadership, intercultural communication, and digital literacy. Our youth projects often involve mobility programs, youth exchanges, training courses, and community-based initiatives that enhance a sense of European identity and global responsibility. Beyond our extensive work in the youth field, Inspireus+ is actively involved in other sectors of education, recognizing that learning is a lifelong process that extends across generations and disciplines. We collaborate with educators, adult learners, education professionals, NGOs, training centers, and public authorities to design and implement impactful Erasmus+ projects that address the needs of learners and institutions across all age groups. Our aim is to create equitable, accessible, and innovative learning environments that support personal and professional development for everyone, regardless of background, age, or ability. Across all sectors, thematic priorities such as environmental sustainability, digital transformation, social inclusion, human rights, and active citizenship are core parts of our work. These themes are reflected not only in the content of our projects but also in our organizational values and approach to implementation. By integrating these priorities, we ensure that our work remains relevant, responsive, and forward-looking.

What are the activities and experience of the organisation?

Our team brings a strong foundation in European project management, combining deep theoretical knowledge with hands-on experience in coordinating projects under different Key Actions of Erasmus+. From needs analysis and project design to implementation, evaluation, and dissemination, we manage each stage with precision, transparency, and care. Our approach emphasizes both impact and sustainability, ensuring that each project leads to meaningful and measurable outcomes for participants and stakeholders. As an organization, we are constantly evolving. We keep ourselves updated with current Erasmus+ frameworks, EU policies, and emerging challenges in education and youth development. We attend international training sessions, partner networking events, and strategic forums to strengthen our expertise and stay aligned with European and global educational trends. Whether it is through youth exchanges that promote cultural understanding, staff training courses that enhance teaching capacity, strategic partnerships that drive educational innovation, or local community initiatives that address real-world challenges, Inspireus+ is dedicated to creating transformative learning experiences. Our goal is to generate positive change-both at the individual and systemic level - and to equip people of all ages with the tools they need to thrive in today's interconnected world.

Please give information on the key staff/persons involved in this application and on the competences and previous experience that they will bring to the project.

The key staff involved in this application bring extensive experience, strong project management skills, and deep expertise in both the technical and educational dimensions of Erasmus+ projects. Their diverse backgrounds across different Programme sectors equip them to design, manage, and deliver high-quality initiatives with lasting impact.

Burak K. is a founding member and the principal representative of Inspireus+. With several years of active involvement in Erasmus+, he has built a strong reputation for coordination, proposal development, and content creation. Burak has managed numerous projects across multiple Key Actions and has served as a group leader and facilitator in many mobilities. His strengths include project writing, logistics, educational content development, and leading intercultural learning processes. His strong organizational skills and detailed knowledge of Erasmus+ procedures ensure smooth and effective project implementation.

Ahmet O. is a dedicated and dynamic youth worker currently serving as Project Manager at Youth Istanbul. As a second-year Computer Engineering student, brings a strong technical perspective to the field of youth work, particularly in digital transformation and technology-based education. Has taken part in more than 20 Erasmus+ KA1 and KA2 projects as a participant, and has solid experience in writing and managing both types of projects. Areas of expertise include Erasmus+ project management, artificial intelligence, digital tools, and youth engagement strategies. In addition to international activities, also takes an active role in local youth initiatives, supporting innovative and inclusive approaches to education and mobility.

Please give information on the key staff/persons involved in this application and on the competences and previous experience that they will bring to the project.

Özge A. is highly experienced in project development, training, and Erasmus+ application writing. She has contributed to numerous successful projects, particularly in areas such as social inclusion, environmental sustainability, and youth empowerment. Known for her inclusive and engaging facilitation style, she effectively addresses diverse participant needs and ensures strong educational relevance. Özge plays a key role in aligning projects with Erasmus+ priorities and maintaining high-quality standards throughout implementation.

Yusuf A. specializes in large-scale and innovation-focused youth projects. As a computer science student, he works with prototypes, digital tools, and new technological approaches that enhance project creativity and practicality. Yusuf has contributed to multiple local initiatives, supporting planning and implementation processes that require technical insight, structured thinking, and forward-looking ideas. His strengths are especially valuable for projects involving digital transformation and innovative learning methods.

Together, Burak, Ahmet, Özge, and Yusuf form the core strength of Inspireus+. Their combined experience in project writing, software integration, logistics, facilitation, and educational design ensures that every stage of the project is carried out with professionalism, creativity, and a strong commitment to impact. Their complementary skill sets enable Inspireus+ to consistently deliver innovative, inclusive, and high-quality Erasmus+ projects.
